

WAREHOUSE FLOOR - GEORGENSGMÜND, GERMANY

PROJECT DESCRIPTION

FORTA-FERRO® was used to reinforce a slab-on-ground application for a manufacturing company in Germany. FORTA-FERRO® was used to reinforce a slab-on-ground - with a thickness of 25 cm and saw cut joints - designed to withstand forklift traffic and heavy equipment. The use of FORTA-FERRO® helped to **reduce cracking and increase durability. Owners were pleased with the final product** and are happy with the smooth finish that FORTA-FERRO® provided.

KEY POINTS

- Reduced Cracking
- Mixed and Placed Easily
- Superior Durability
- Superior Finish
