

## LUXURY HOTEL - DETROIT, MI

### PROJECT DESCRIPTION

The large luxury hotel is being developed in downtown Detroit, Michigan to host both overnight stays and local upscale events. Hotel owners wanted a reinforcement method for the multiple slab-on-metal-deck applications that would help **to reduce cracking while remaining extremely durable**. Project supervisors chose to use FORTA-FERRO<sup>®</sup> to reinforce the slabs, in conjunction with traditional methods, for **durable, long-lasting, and expertly finished slabs**.

### KEY POINTS

- Reduced Cracking
- Extreme Durability
- Mixed and Pumped Easily
