

BETTERS WAREHOUSE - ALIQUIPPA, PA

PROJECT DESCRIPTION

Bettors Warehouse is the first of many projects for the Shell Oil Corporation. This initial project was needed to create a lay down yard for the larger buildings yet to come. The slab was 7 inches thick on one layer of plastic sheeting. By choosing to use FORTA-FERRO[®], the joints were able to be 26' x 26' while still maintaining a **durable** foundation. Also, by using the fibers, they were able to **speed up the pour process, saving time and money.**

KEY POINTS

- Faster Pour Process
- Save Money
- Superior Finish

DETAILS

Date: May 2016

Location: Aliquippa, PA

Dosage: 7.5 lbs. / cu. yd.

Fiber: FORTA-FERRO[®] 2-1/4"
