

## FEDERAL COURTHOUSE - HARRISBURG, PA

### PROJECT DESCRIPTION

FORTA-FERRO macro-synthetic fibers replaced specified steel in this Federal Courthouse new construction build. This multi-story slab-on-metal deck project used 5.0 lb/cu yd of reinforcement fibers for added durability. This allowed the contractor to **save time and money while reducing the expense and risk of using steel reinforcement.**

### KEY POINTS

- Save Time
- Save Money
- Increased Safety
